ABOUT

I love to write javascript, coding layouts, SVG shapes and animations.
Started coding back in January 2015, after finding a way automate repetitive tasks by coding. Hacked a few illustrator scripts and continued to learn about javascript and front end web tools.
Currently searching to build a career in the field of front end developement.

EXPERIENCE

FRONTEND DEV
Study and Freelance
2015 - Present

Made interactive websites and webapps with javascript functionality, that are responsive and mobile friendly.
